

The Yuba County Sheriff's Posse Search + Rescue serves the Yuba County Sheriff's Department and the community at large by assisting with search and rescue operations and providing aid during times of disaster.

The Posse is comprised entirely of volunteers who must spend countless hours in stringent training in order to qualify to assist the Department with ground, mounted and all terrain vehicle search and rescue efforts; flood and fire evacuations; and command post staffing needs.

In addition, the Posse dedicates a considerable amount of time organizing community assistance and sponsoring and participating in community events and activities that raise public awareness relative to personal safety and preparedness.

Posse members receive no compensation for their service or reimbursement of personal expenses incurred during service.

Monies received by donation, benefit or fundraising are used to secure training and purchase the extensive equipment and gear essential to effectively serve the Yuba County Sheriff's Department and community, as well as neighboring agencies and communities when called upon for mutual aid.
